LETTER OF COMPATIBILITY

DESIGN FOR RECYCLING

IPC assessed the recyclability of the semi-finished-product described underneath. A semi-finished packaging is the packaging's body or one of its main components (e.g. dispenser, closure system) without all its final elements (e.g. barrier, labels, artwork, etc). The analysis was done conform to the RecyClass Recyclability Methodology (2.1 May 2022) and the Design for Recycling Guidelines (October 2022). Based on the results of our judgement we are confident to grant you this letter of compatibility.

Please be aware that changes in design, print, used materials and/or the effect of product-content or residue, might change the outcome of the assessment of a final packaging. We advise you to have the final/complete product packaging certified.

GRANTED TO:

SK Functional Polymers

CERDATO-Route du Rilsan
27470 - Serquigny
France

PACKAGING:

Film PE/tie/EVOH/tie/PE containing Orevac 18341

Other flexible
PE flexible

RESULT

We confirm that the semi-finished product we have assessed, is compatible with readily available sorting & recycling technologies commonly used at industrial scale in the recycling sector in Europe.

As an intermediate result, we have established that this semi-finished product is sorted into the PE films-fraction.

THE RECYCLASS RECYCLABILITY OF THIS SEMI-FINISHED PRODUCT IS CALCULATED AS CLASS B.

DISCLAIMER

At this stage, the use of the RecyClass logo is prohibited. The use of any claims on the recyclability of the semi-finished product are not supported by RecyClass. To use the logo and/or to have RecyClass endorsement, you must submit the final packaging for certification. Indeed, it is the final packaging (including its decorative elements and product-residue) that will enter the recycling system.

This letter of compatibility is valid until 26/02/2026, three years after the release of the audit report.
